

TRẦN XUÂN BẮC

SYSTEM ANALYST INTERN

Gia Binh, Bắc Ninh · Bxuan964@gmail.com · Portfolio · GitHub

CAREER OBJECTIVE

Information Technology student pursuing a System Analyst internship, with hands-on experience in requirement analysis, Use Case, ERD, API documentation, database design, and ASP.NET Core development. Seeking to strengthen system analysis and software documentation skills through real-world projects.

TECHNICAL SKILLS

System Analysis:	Requirement Analysis, Use Case, UML, ERD, Business Flow, BRD, SRS
API & Testing:	REST API, API Specification, Postman, Swagger/OpenAPI, API Testing
Database:	SQL Server, PostgreSQL, MySQL, SQLite, Database Design
Backend:	C#, ASP.NET Core MVC/Web API, EF Core, Identity, SignalR
Programming:	C#, Python, JavaScript, SQL
Tools & DevOps:	Docker, Docker Compose, Git, GitHub

PROJECTS

WebBanHangOnline - Online Fashion E-commerce Website (ASP.NET Core)2026

GitHub: <https://github.com/trxuanbac/WebBanHangOnline.git>

- Analyzed business requirements and authored complete System Analyst documentation: BRD, SRS, Use Cases, ERD, and API specifications.
- Designed relational database schema in SQL Server; modeled data relationships for catalog, variants, stock, cart, orders, and reviews.
- Specified RESTful API contracts with Swagger/OpenAPI and defined Postman test collections for API endpoint verification.
- Modeled authentication and authorization workflows with ASP.NET Core Identity, defining distinct permissions for Admin and Customer roles.
- Designed end-to-end payment flows (VNPay, MoMo, VietQR, COD), SignalR realtime notification hub, and containerized with Docker Compose.

Scant Reports - Data Ingestion and Multi-format Report Export System2026

GitHub: <https://github.com/trxuanbac/scant.git>

- Gathered requirements and designed data processing workflows for user authentication, CSV/XLSX file ingestion, and automated report generation.
- Defined role-based access control (Admin/User), audit log specifications, health check monitoring, and system backup/restore procedures.
- Formulated report templating specifications supporting multi-format exports (HTML, CSV, Word DOCX, PDF) and containerized with Docker.

Student Management System - System Analysis Course Project2024

GitHub: <https://github.com/trxuanbac/PROFILEE>

- Analyzed functional requirements, modeled Use Case diagrams, designed ERD schema, and defined data integrity constraints in SQL Server.

EDUCATION & CERTIFICATION

Dai Nam University - Bachelor of Information TechnologyHanoi, Vietnam | 2023 - 2026

English: Technical documentation reading proficiency
